

DEC invites you to join us at an upcoming New York State Solid Waste Management Plan stakeholder meeting. New York State's current solid waste management plan, Beyond Waste<<https://www.dec.ny.gov/chemical/41831.html>>, set forth a 10-year plan for solid waste management beginning in 2010. As we enter 2020, the plan will reach the end of the planning period, providing an opportunity to develop a new vision in handling the State's solid waste. As we form this new vision, we are looking for your input.

Fourteen stakeholder meetings will take place across New York State from February 14th to March 27th, 2019. The content of these meetings will include a brief overview of what the State has accomplished since the release of Beyond Waste, our current state of solid waste management and pressing local issues. From there, we will have a facilitated discussion focused on hearing from you, voicing your concerns and suggestions in moving New York State's solid waste management forward.

Please register on EventBrite<<https://www.eventbrite.com/e/state-solid-waste-management-plan-stakeholder-meetings-registration-55246392447>> for one of the following meetings in order to secure your attendance as seats are limited. Registration will close at noon the day before each meeting. Walk ins are welcome given available seating at the meeting.
