

Class B Fire Suppression Foam Usage Survey - New York State Airports

If a respondent indicated that the facility used/stored/disposed PFOA/PFOS substances, it does not necessarily mean that there is an environmental/public health concern associated with that facility. Also, if a respondent indicated that they currently/formerly used, stored, disposed of, or released Class B firefighting foam it does not necessarily mean that the foam contains/contained PFOA/PFOS since many Class B foams do not contain these substances. DEC is in the process of reviewing/evaluating the returned surveys to determine if additional follow-up or study is needed.

Return rate: 91 surveys were sent to facilities; 90 were returned completed as of June 1, 2017.

Questions 1 & 2 relate to name and address; questions 3-5 relate to facility ownership.

Q. 6: Is any Class B fire suppression foam currently stored and/or used at the facility?

Q. 7: Has any Class B fire suppression foam ever been stored and/or used at the facility?

Q. 8: Has Class B fire suppression foam ever been used for training purposes at the facility?

Q. 9: Has Class B fire suppression foam ever been used for firefighting or other emergency response purposes at the facility?

Q. 10: Has the facility ever experienced a spill or leak of Class B fire suppression foam?

Q. 11: Has your facility ever been responsible for the use of Class B fire suppression foam at a location other than the facility (i.e. offsite training, emergency response, or spill)?

Class B Fire Suppression Foam Usage Survey - New York State Military Facilities

If a respondent indicated that the facility used/stored/discharged PFOA/PFOS substances, it does not necessarily mean that there is an environmental/public health concern associated with that facility. Also, if a respondent indicated that they currently/formerly used, stored, disposed of, or released Class B firefighting foam it does not necessarily mean that the foam contains/contained PFOA/PFOS since many Class B foams do not contain these substances. DEC is in the process of reviewing/evaluating the returned surveys to determine if additional follow-up or study is needed.

Return rate: 12 surveys were sent to facilities; 12 were returned completed as of Feb 7, 2017.

Questions 1 & 2 relate to name and address; questions 3-5 relate to facility ownership.

Q. 6: Is any Class B fire suppression foam currently stored and/or used at the facility?

Q. 7: Has any Class B fire suppression foam ever been stored and/or used at the facility?

Q. 8: Has Class B fire suppression foam ever been used for training purposes at the facility?

Q. 9: Has Class B fire suppression foam ever been used for firefighting or other emergency response purposes at the facility?

Q. 10: Has the facility ever experienced a spill or leak of Class B fire suppression foam?

Q. 11: Has your facility ever been responsible for the use of Class B fire suppression foam at a location other than the facility (i.e. offsite training, emergency response, or spill)?

Class B Fire Suppression Foam Usage Survey - New York State Fire Departments

If a respondent indicated that the facility used/stored/dispensed PFOA/PFOS substances, it does not necessarily mean that there is an environmental/public health concern associated with that facility. Also, if a respondent indicated that they currently/formerly used, stored, disposed of, or released Class B firefighting foam it does not necessarily mean that the foam contains/contained PFOA/PFOS since many Class B foams do not contain these substances. DEC is in the process of reviewing/evaluating the returned surveys to determine if additional follow-up or study is needed.

Return rate: 1813 surveys were sent to facilities: 992 were returned completed as of Mar 22, 2017.

Questions 1 & 2 relate to name and address; questions 3-5 relate to facility ownership.

Q. 6: Is any Class B fire suppression foam currently stored and/or used at the facility?

Q. 7: Has any Class B fire suppression foam ever been stored and/or used at the facility?

Q. 8: Has Class B fire suppression foam ever been used for training purposes at the facility?

Q. 9: Has Class B fire suppression foam ever been used for firefighting or other emergency response purposes at the facility?

Q. 10: Has the facility ever experienced a spill or leak of Class B fire suppression foam?

Q. 11: Has your facility ever been responsible for the use of Class B fire suppression foam at a location other than the facility (i.e. offsite training, emergency response, or spill)?
