Today my message is more urgent than my previous messages sent Oct. 12 and Oct. 21 (which the DEC has not answered or even acknowledged).

...More urgent because today is the day that DEC is holding public hearings on the agency's denial of Greenidge Generation's Title V Air permit.

More than 4 weeks ago, I requested air emissions data for Greenidge Generation. The information is readily available to the agency and could have been provided promptly but was not.

Those requested documents are absolutely central to the issue before ALJ's hearing today. If there is a legitimate reason for not providing records, I believe the agency has an obligation to state them. -- Peter Mantius

Good morning.

I requested these records four weeks ago.

It was a simple request, and the documents I seek are readily available to the DEC.

I would appreciate an explanation for the delay in providing them.

Thank you.

The requested records are quite accessible to the DEC and could be very promptly provided, as I had asked. You are not legally required to do so. But you could if you chose to. So I wait.
