Mine Inspection Record(s)

[\[Go Back\]](#)

Information presented on this page is from inspections conducted by Mined Land staff and stored in our database. Note that there may be a drop-down list of multiple inspection dates available. Due to changes in data management practices over time, older inspection records are not as complete as new ones. Regarding inspections conducted specifically at the reclamation stage, some older reclamation information may be found here. However, newer more detailed reclamation inspection records can be found under the “Reclamation Inspections” link off the main Mines Data Search.

Company Name	It's Greener Now Inc	
Mine Name	Padua Mine	
Mine ID	80244	
Inspection Type	Old Gen. Inspection Code	
Inspector	Daniel Sek	
Inspection Date	08/24/2017 	View
Weather		
Persons Interviewed		
Comments	Areas that are affected outside the mine boundary have not been seeded, no new vegetation present. All areas outside the mine where to be reclaimed as part of a consent order, the time frame to have this area fully reclaimed has passed. No new reclamation work since last inspection. The berms around the mine, intended to keep all stormwater in the mine boundary have also not been seeded/ have vegetation growing. The area where the berm was removed at last inspection has been replaced but is still unvegetated. These bare berms must be vegetated to slow erosion, maintain their integrity.	
Description	Result	Comments
Permit posted	Yes	
Permit current	No	renewal can not be issued until consent order is fulfilled and mine is in complete compliance

Within permitted area	No	areas outside mine are still not reclaimed
Within LOM	No	areas outside the mine are still not reclaimed
Setbacks OK	No	areas outside the mine are affected
Mining OK with plans	No	berms not vegetated, area outside LOM affected
Overburden/spoil piles ok	No	berms not vegetated
Adequate topsoil	Yes	
Haul roads OK	Yes	
Dust control OK	Yes	
Noise control	Yes	
Drainage OK	Yes	
Screening in place	Yes	
Screening OK	No	berms must be vegetated
Entrance road OK	Yes	
Special conditions met	No	mined outside LOM, PTA. Berms not vegetated
Operational	No	not at time of inspection, but some activity has occurred since last insp
